

Shih-Fen Cheng

Principal Research Scientist, Amazon

Associate Professor of Computer Science, Singapore Management University
80 Stamford Road, Singapore 178902

Email: sfcheng@smu.edu.sg , chengsf@umich.edu Phone: +65-6828-0526
<https://sfcheng-research.github.io/>

EDUCATION

University of Michigan, Ann Arbor, Michigan

- **Ph.D.**, Department of Industrial and Operations Engineering
September 2001 to October 2006
 - Dissertation: Game-theoretic Approaches for Complex Systems Optimization.
 - Committee: Robert L. Smith (Co-Chair, IOE), Michael P. Wellman (Co-Chair, CSE), Marina Epelman, Satinder Singh.

National Taiwan University, Taipei, Taiwan

- **B.S.E.**, Department of Mechanical Engineering
September 1993 to June 1997

EXPERIENCE

Amazon

- **Principal Research Scientist**
July 2024 to present
 - Working on optimizing delivery experience and logistics operations for Amazon Japan.

Singapore Management University

- **Associate Professor of Computer Science**, School of Computing and Information Systems
January 2015 to present
- **Urban Fellow**, Urban Institute
August 2023 to present
- **Deputy Director (Research)**, Fujitsu-SMU Urban Computing and Engineering Corp Lab
October 2014 to September 2020
 - A S\$27m research lab jointly funded by Fujitsu (Japan) and National Research Foundation (Singapore).
 - Focus on research with real-world impact in urban mobility, logistics, and crowd management.
- **Assistant Professor of Information Systems**, School of Information Systems
December 2006 to December 2014

University of Michigan

- **Graduate Student Instructor**, Department of Industrial and Operations Engineering
January 2006 to April 2006
 - Teaching assistant for IOE 310: Introduction to Optimization Methods.
- **Graduate Student Research Assistant**
September 2001 to October 2006
 - Member of Strategic Reasoning Group (PI: Michael P. Wellman).
 - Member of Dynamic Systems Optimization Lab (PI: Robert L. Smith).

OLE Technology Corp

- **Research Engineer**
July 1999 to June 2001
 - Software startup company on Product Life Cycle Management system.

Compulsory Military Service

- **Lecturer**, Second Lieutenant, Taiwan Army
July 1997 to June 1999

RESEARCH INTERESTS

- Urban computing and sustainable urban operations
- Mobility-on-demand systems
- Mobile crowdsourcing
- Last-mile logistics
- Agent-based modeling and simulation
- Large-scale optimization models and computational methods

NOTABLE RESEARCH PROJECTS

Driver Guidance Systems (DGS) for Taxi Drivers

- Integrates real-time spatio-temporal data processing, deep-learning-based demand prediction, and city-scale taxi rebalancing optimization.
- Field-tested with real drivers in Singapore (2017–2018) and Tokyo (2020). Following DGS lowers vacant roaming time by 34% and 12% respectively.
- Awards received: First prize, CIKM-2017 AnalytiCup; Best Application Demo, AAMAS-2018; Finalist, 2020 INFORMS Innovative Applications in Analytics Award.
- Project Website: https://sfcheng-research.github.io/projects/1_dgs/

Predictive Mobile Crowdsourcing (MCS)

- Our research group pioneered the push-based crowdsourcing, where the crowdsourcing platform proactively recommends tasks that maximize task completion while minimizing workers' detour from their routine movements.
- Field-tested with 1000+ students on the SMU campus over 3 years, and empirically validated a variety of MCS technologies.
- Push-mode contributes to 56% more completed tasks, and 30% less detour for workers.
- Awards received: Honorable Mention, Best of CSCW Award (2016).
- Project Website: https://sfcheng-research.github.io/projects/2_mcs/

HONORS AND AWARDS

- Best Student Paper Award: Integrating Empirical Analysis into Analytical Framework: An Integrated Model Structure for On-Demand Transportation, *2021 INFORMS Conference on Service Science*, 2021.
- Finalist, INFORMS Innovative Applications in Analytics Award (IAAA): Driver Guidance System for Taxi Drivers, *Analytics Society of INFORMS*, 2020.
- Lee Kong Chian Fellowship for Research Excellence, *Singapore Management University*, 2015–2016, 2019–2021.
- Best Application Demo: A Driver Guidance System for Taxis in Singapore, *Seventeenth International Conference on Autonomous Agents and Multiagent Systems (AAMAS-18)*, 2018.

- First Prize, CIKM AnalytiCup: DataSpark Mobility Open-Task Challenge: Predicting Taxi Demand-Supply Mismatches to Dynamically Position Mobility-on-Demand Services, *Twenty-Sixth ACM International Conference on Information and Knowledge Management (CIKM-17)*, 2017.
- Honorable Mention, Best of CSCW Award: Campus-scale mobile crowd-tasking: Deployment and behavioral insights, *Nineteenth ACM Conference on Computer-Supported Cooperative Work and Social Computing (CSCW-16)*, 2016.
- Finalist, George B. Dantzig Dissertation Award: Game-theoretic Approaches for Complex Systems Optimization, *Institute for Operations Research and the Management Sciences*, 2007.
- Wilson Prize (best student paper in manufacturing systems): Sampled fictitious play for multi-action stochastic dynamic programs, *Department of Industrial and Operations Engineering, University of Michigan*, 2005.

MEDIA MENTIONS/INTERVIEWS

- Rising private-hire car population, surging trips a roadblock to Singapore’s car-lite goal?, *Business Times*, November 8, 2023.
- Turning point for the taxi industry?, *Business Times*, September 30, 2023.
- Commentary: Shortening the waiting time for your cab with a driver guidance system, *Channel News Asia*, February 5, 2019.
- Pass the parcel (crowd-sourced logistics), *NHK World*, November 8, 2018.
- New app can direct cabbies to areas of high demand, *Straits Times*, February 27, 2018.
- 400 taxi drivers involved in SMU pilot project to help them find passengers faster, *Channel 8 News*, January 29, 2018.
- Third-party booking system benefits smaller taxi companies, *Lianhe Zaobao*, November 18, 2016.
- *Channel NewsAsia: It Figures*, March 8, 2016.

62. Shih-Fen Cheng and Yee Pin Lim. An agent-based commodity trading simulation. *Twenty-First Annual Conference on Innovative Applications of Artificial Intelligence (IAAI-09)*, pages 72–78, Pasadena, CA, July 2009.
63. Shih-Fen Cheng, John Tajan, and Hoong Chuin Lau. Distributing complementary resources across multiple periods with stochastic demand: Hedging via time frame aggregation. *2008 IEEE/WIC/ACM International Conference on Intelligent Agent Technology (IAT-08)*, pages 373–379, Sydney, Australia, December 2008.
64. Shih-Fen Cheng. Designing the market game for a commodity trading simulation. *2007 IEEE/WIC/ACM International Conference on Intelligent Agent Technology (IAT-07)*, pages 445–449, San Jose, CA, November 2007.
65. Hoong Chuin Lau, Shih-Fen Cheng, Thin Yin Leong, Jong Han Park, and Zhengyi Zhao. Multi-period combinatorial auction mechanism for distributed resource allocation and scheduling. *2007 IEEE/WIC/ACM International Conference on Intelligent Agent Technology (IAT-07)*, pages 407–411, San Jose, CA, November 2007.
66. Shih-Fen Cheng and Michael P. Wellman. Iterated weaker-than-weak dominance. *Twentieth International Joint Conference on Artificial Intelligence (IJCAI-07)*, pages 1233–1238, Hyderabad, India, January 2007.
67. Michael P. Wellman, Daniel M. Reeves, Kevin M. Lochner, Shih-Fen Cheng, and Rahul Suri. Approximate strategic reasoning through hierarchical reduction of large symmetric games. *Twentieth National Conference on Artificial Intelligence (AAAI-05)*, pages 502–508, Pittsburgh, PA, July 2005.
68. Shih-Fen Cheng, Daniel M. Reeves, Yevgeniy Vorobeychik and Michael P. Wellman. Notes on equilibria in symmetric games. *Sixth Workshop On Game Theoretic And Decision Theoretic Agents, in conjunction with AAMAS-04*, New York City, NY, August 2004.
69. Michael P. Wellman and Shih-Fen Cheng. Market-based task allocation for dynamic information processing environments. *International Conference on Integration of Knowledge Intensive Multi-Agent Systems*, pages 109–114, Cambridge, MA, October 2003.
70. Shih-Fen Cheng, Chung-Chih Chou, Cheng-Yu Lin and Dar-Zen Chen. Computer-aided sketching of articulated gear mechanisms, *Thirteenth Chinese Society of Mechanical Engineers Annual Conference*, pages 298–304, Taipei, Taiwan, 1996.

Patent

1. Shih-Fen Cheng and Prabod Rathnayaka. Method and System for Taxi Demand Prediction Using a Neural Network Model. *Singapore Patent 10202103115Q*, March 2025

Referred Technical Demo

1. Shashi Shekhar Jha, Shih-Fen Cheng, Rishikeshan Rajendram, Nicholas Wong, Firmansyah Bin Abd Rahman, Nghia Truong Trong, Meghna Lowalekar, and Pradeep Varakantham. A driver guidance system for taxis in Singapore. *Seventeenth International Conference on Autonomous Agents and Multiagent Systems (AAMAS-18)*, pages 1820–1822, Stockholm, Sweden, July 2018.
 - Awarded the Best Application Demo award.
2. Shih-Fen Cheng, Yee Pin Lim, and Chao-Chi Liu. An agent-based commodity trading simulation. *Eighth International Conference on Autonomous Agents and Multiagent Systems (AAMAS-09)*, pages 1377–1378, Budapest, Hungary, May 2009.

Book Chapter

1. Shih-Fen Cheng, Michael P. Wellman and Dennis G. Perry. Market-based resource allocation for information-collection scenarios. In K. Kurumatani, S.-H. Chen, and A. Ohuchi, editors, *Multiagent for Mass User Support*, LNAI 3012, pages 33–47. Springer-Verlag, January 2004.

Working Papers

(* The date on working paper reflects latest draft.)

1. Alp Arslan, Firat Kilci, Shih-Fen Cheng, and Archan Misra. Choice-based crowdshipping: A dynamic task display problem, under review at *European Journal of Operational Research*, 2024.
2. Shih-Fen Cheng, Wen-Tai Hsu, and Jing Li. When Taxi Drivers Meet Dynamic Pricing: A Lesson from Singapore’s JustGrab Program, under review, 2024.
3. Yuan-Mao Kao, Yang Yang, Shih-Fen Cheng, and Cheng-Hung Wu. Price competition in global operations: considering the effect of parallel trade, under review, 2022.
4. Chung-Kyun Han, Shih-Fen Cheng, Hoong Chuin Lau, and Archan Misra. Smart bundling for the crowdsourced last-mile logistics: The case with public transport users, under revision, 2022.
5. Sumit Agarwal, Shih-Fen Cheng, Jussi Keppo, and Ryoko Sato. Learning by driving: Evidence from taxi driver wages in Singapore. November 2016.

PRESENTATIONS

1. Computational Models of Human Strategic Behaviors, *Industry & Demo Day for Data Science & AI 2023*, *Singapore Data Science Consortium*, February 2023.
2. Improving Quantal Cognitive Hierarchy Model Through Iterative Population Learning, *13th POMS-HK International Conference*, January 2023.
3. AI Technologies for Urban Transport Services, *Feng Chia University*, December 2022.
4. Human Behaviors in Urban Transportation, *Department of Civil Engineering, National Taiwan University*, November 2022.
5. Human Behaviors in Urban Transportation, *Department of Information Management, National Taiwan University*, November 2022.
6. AI Technologies for Point-to-Point Transportation, *National Defense Medical Center*, October 2022.
7. AI Technologies for Point-to-Point Transportation, *Department of Economics, National Cheng Kung University*, October 2022.
8. Quantifying Human Behaviors in Complex Games, *Department of Economics, National Cheng Kung University*, October 2022.
9. Quantifying Human Behaviors in Complex Games, *Department of Computer Science and Information Engineering, National Taiwan University*, October 2022.
10. Quantifying Human Behaviors in Complex Games, *Institute of Information Science, Academia Sinica*, October 2022.
11. Quantifying Human Behaviors in Complex Games, *Institute of Industrial Engineering, National Taiwan University*, September 2022.
12. Improving Quantal Cognitive Hierarchy Model Through Iterative Population Learning, *Department of Economics, National Taiwan University*, September 2022.
13. Improving Quantal Cognitive Hierarchy Model Through Iterative Population Learning, *Institute of Economics, Academia Sinica*, September 2022.
14. Improving Quantal Cognitive Hierarchy Model Through Iterative Population Learning, *Behavioural Science Initiative, Singapore Management University*, September 2022.
15. AI Technologies in City Management, *Global Cities Forum*, Shanghai, China (Virtual), November 2021.

16. The Driver Guidance System for Taxi Drivers, *Analytics for X 2021 Conference*, Singapore, June 2021.
17. The Driver Guidance System for Taxi Drivers, *INFORMS Innovative Applications in Analytics Award (IAAA)*, Virtual, April 2020.
18. How Can Taxis Up Their Games in the Age of Uber, *Amazon*, Seattle, Washington, USA, October 2019.
19. How Can Taxis Up Their Games in the Age of Uber, *INFORMS Annual Meeting 2019*, Seattle, Washington, USA, October 2019.
20. How Can Taxis Up Their Games in the Age of Uber, *Department of Computer Science, National Chiao Tung University*, Taiwan, May 2019.
21. Efficiency of Streethail vs. Booking Apps, *2018 INFORMS Annual Meeting*, Phoenix, Arizona, November 2018.
22. Taxis strike back: A field trial of the driver guidance system, *2018 INFORMS International Conference*, Taipei, Taiwan, June 2018.
23. Campus-scale mobile crowdsourcing: design, deployment, and behavioral insights, *Institute of Information Science, Academia Sinica*, Taipei, Taiwan, June 2017.
24. How can taxis up their games in the age of Uber, *INFINITI Lab*, Singapore, April 2017.
25. Invited Panelist, *Fourth Singapore-India Business Dialogue Sustainable Urban Management in Singapore and India*, *Singapore Management University*, November 2016.
26. How can taxis up their games in the age of Uber, *LTA-UITP Singapore International Transport Congress and Exhibition (SITCE 2016)*, Singapore, October 2016.
27. Transportation and logistics for future cities, *International Symposium on Applied Analytics for a Smart Society*, Colombo, Sri Lanka, September 2016.
28. How can taxis up their games in the age of Uber, *Asia Taxi Forum*, Singapore, July 2016.
29. Mobility on demand for future cities, *Taiwan Data Science Annual Meeting*, Taipei, Taiwan, July 2016.
30. Mobility on demand for future cities, *Thematic Workshop of APEX Business-IT Global Case Challenge 2016*, Singapore, May 2016.
31. Smartphone-enabled urban solutions: Mobility on demand and mobility on sale, *Future Ready Forum*, Singapore, March 2016.
32. Smartphone-enabled urban solutions: Mobility on demand and mobility on sale, *2016 SMU Logistics & Supply Chain Symposium: Urban Mobility & Circular Economy*, Singapore, March 2016.
33. Mobility on demand for future cities, *School of Computer Engineering, Nanyang Technological University*, Singapore, November 2015.
34. (Sustainable) Mobility on demand, *Future Urban Mobility Symposium 2015*, Singapore, July 2015.
35. Product competition with network effects, *21st International Conference on Computing in Economics and Finance*, Taipei, Taiwan, June 2015.
36. Smartphone-enabled urban solutions: Mobility on demand and mobility on sale, *Xerox Research Centre India*, Bangalore, India, April 2015.
37. Smartphone-enabled urban solutions: Mobility on demand and mobility on sale, *2015 Workshop on Analytics for Business, Consumer, and Social Insights (BCSI 2015)*, Singapore, March 2015.
38. Approximate dynamic programming for last-mile problem with stochastic demand, *INFORMS Annual Meeting*, San Fransisco, California, November 2014.
39. Smartphone-enabled urban solutions: Mobility on demand and mobility on sale, *Computer Science & Information Engineering*, National Taiwan University, Taipei, Taiwan, December 2014.
40. Smartphone-enabled urban solutions: Mobility on demand and mobility on sale, *Palo Alto Research Center*, Palo Alto, California, November 2014.
41. Smartphone-enabled urban solutions: Mobility on demand and mobility on sale, *Traffic21 @ Heinz College, Carnegie Mellon University*, Pittsburgh, Pennsylvania, November 2014.

42. Smartphone-enabled urban solutions: Mobility on demand and mobility on sale, *Business School, National University of Singapore*, Singapore, October 2014.
43. Smartphone-enabled urban solutions: Mobility on demand and mobility on sale, *Computer Science and Engineering, University of Michigan*, Ann Arbor, Michigan, July 2014.
44. Mechanisms for arranging ride sharing and fare splitting for last-mile travel demands, *LAMSADE, Université Paris-Dauphine*, Paris, France, May 2014.
45. Approximate dynamic programming for last-mile problem with stochastic demand, *Future Urban Mobility Symposium 2014*, Singapore, January 2014.
46. TaxiSim: Design and application, *Future Urban Mobility Symposium 2014*, Singapore, January 2014.
47. Mechanisms for arranging ride sharing and fare splitting for last-mile travel demands, *Department of Systems & Information Engineering, University of Virginia*, December 2013.
48. An agent-based simulation approach to experience management in theme parks, *ESHIA Winter Workshop: Towards Large Multiscale Simulations of Complex Socio-Economic Systems with Heterogeneous Interacting Agents*, Singapore, November 2013.
49. Fair cost sharing mechanisms for last mile ridesharing, *INFORMS Annual Meeting*, Minneapolis, Minnesota, November 2013.
50. Mobility on demand for future cities, *Department of Industrial Engineering, Tsinghua University*, Beijing, China, August 2013.
51. Research on living analytics, *Institute of Industrial Engineering, National Taiwan University*, Taipei, Taiwan, March 2013.
52. Research on living analytics, *Department of Business Administration, National Taiwan University*, Taipei, Taiwan, March 2013.
53. Research on living analytics, *Department of Computer Science and Information Engineering, National Cheng Kung University*, Tainan, Taiwan, March 2013.
54. TaxiSim: Its design and application, *Future Urban Mobility Symposium 2013*, Singapore, January 2013.
55. TaxiSim: A multiagent simulation platform for evaluating taxi fleet operations, *Land Transport Authority*, Singapore, January 2013.
56. Parallel markets, interdependent assets, and market crashes: an agent-based modeling perspective, *2011 Winter Workshop on Economic Heterogeneous Interacting Agents (2011 Winter WEHIA)*, Tianjin, China, November 2011.
57. Parallel markets, interdependent assets, and market crashes: an agent-based modeling perspective, *17th International Conference on Computing in Economics and Finance (CEF 2011)*, San Francisco, CA, June 2011.
58. Evaluating the impact of extreme conditions in financial markets with a flexible agent-based market simulation, *16th International Conference on Computing in Economics and Finance (CEF 2010)*, London, UK, July 2010.
59. An analysis of extreme price shocks and illiquidity among trend followers, *Fifth International Symposium on Financial Engineering and Risk Management*, Taipei, Taiwan, June 2010.
60. An analysis of extreme price shocks and illiquidity among trend followers, *R/Rmetrics Singapore Conference 2010 - Computational Topics in Finance*, Singapore, February 2010.
61. Optimal routing policy for taxi queuing, *INFORMS Annual Meeting*, Washington, DC, October 2008.
62. Game-theoretic approaches for complex systems optimization (Dantzig Dissertation Award presentation), *INFORMS Annual Meeting*, Seattle, WA, November 2007.
63. Combinatorial auction for multi-period distributed resource allocation, *INFORMS Annual Meeting*, Seattle, WA, November 2007.
64. Learning best reply evaluations in the sample fictitious play algorithm, *INFORMS Annual Meeting*, Seattle, WA, November 2007.
65. Designing an experimental gaming platform for trading grid resources, *Third International Workshop on Grid Computing and Applications*, Singapore, June 2007.

66. Designing an experimental gaming platform for trading grid resources, *Second International Conference on Design Science Research in Information Systems & Technology*, Pasadena, CA, May 2007.
67. A dynamic programming approach to the end-state problem, *Symposium on Complexity and Advanced Analytics: Theory and Applications*, Detroit, MI, October 2006.
68. A fictitious play algorithm for coordinated traffic signal control and dynamic route guidance, *INFORMS Annual Meeting*, San Francisco, CA, November 2005.
69. CoSIGN: A fictitious play algorithm for coordinated traffic signal control, *INFORMS Annual Meeting*, Denver, CO, October 2004.
70. Joint optimization of investment, production, and maintenance in production systems, *Symposium on Complexity and Advanced Analytics Applied to Business, Government and Public Policy*, Dearborn, MI, October 2004.
71. Market-based task allocation for dynamic information processing environments, *International Conference on Integration of Knowledge Intensive Multi-Agent Systems*, Cambridge, MA, October 2003.

COURSE TAUGHT

- CS603: Multi-agent Systems (Postgraduate), 2018 - now
- CS426 (formerly IS418): Agent-based Modeling & Simulation, 2017 – now
- COR-IS1702 (formerly IS103): Computational Thinking, 2013 – now
- IS418: Intelligent Business Gaming, 2010 – 2017
- IS102: Computer as an Analysis Tool, 2007 – 2013
- Commodity Trading Simulation, 2007 – 2011
- IS418: Intelligent Agent Design & Applications, 2007 – 2008
- Quantitative Finance Workshop: Introduction to C++, 2007 – 2009

THESIS CHAIR (PHD)

- Jian Bin Liew, January 2024 - now
- Pang Jin Tan, August 2021 – now
 - Thesis Title: Collaborative Logistics: Theory and Practice of Platform and Incentive Design
 - Awarded SMU Presidential Doctoral Fellowship, 2024.
- Qian Shao, August 2020 - now
 - Thesis Title: Real-world Considerations in Human Decision Making
 - Awarded SMU Presidential Doctoral Fellowship, 2023, 2024.
- Mengyu Ji, August 2019 – July 2023
 - Thesis Title: Analyzing Taxi Drivers' Decision-making and Recommending Strategies for Enhanced Performance: A Data-driven Approach
 - Current position: Assistant Professor, Luoyang Institute of Science and Technology, China.
- Chung-Kyun Han, January 2016 – December 2020
 - Thesis Title: Efficient Algorithms for Trajectory-Aware Mobile Crowdsourcing
 - Awarded SMU Presidential Doctoral Fellowship, 2020.
 - Current position: Technical Account Manager, Gurobi Optimization
- Larry Lin (co-supervised with Hoong Chuin Lau), January 2014 – December 2018
 - Thesis Title: Modeling Movement Decisions in Networks: A Discrete Choice Model Approach
 - Current position: Senior Data Science Manager, Grab.
- Cen Chen (co-supervised with Hoong Chuin Lau), January 2013 – June 2017
 - Thesis Title: Recommending Personalized Schedules in Urban Environments

- Current position: Associate Professor, School of Data Science and Engineering, East China Normal University.
- Jiali Du (co-supervised with Hoong Chuin Lau), July 2012 – June 2017
 - Thesis Title: Proactive and Reactive Strategies to Handle Surges in Urban Crowds
 - Current position: Senior Marketing Data Scientist, Google.

THESIS CHAIR (ENG D)

- Asyikeen Azhar (co-supervised with Aldy Gunawan), August 2020 – May 2024
 - Thesis Title: Enabling Sustainable Mining via AI-based Approaches

THESIS CHAIR (MASTER)

- Duc Thien Nguyen (co-supervised with Hoong Chuin Lau), March 2011 – July 2014
- Long Foong Liow (co-supervised with Hoong Chuin Lau), August 2009 – June 2012

THESIS COMMITTEE MEMBER (PHD)

- Changyu Chen (PhD in CS, Chair: Pradeep Varakantham)
- Dexun Li (PhD in CS, Chair: Pradeep Varakantham)
- Jingfeng Yang (PhD in CS, Chair: Hoong Chuin Lau)
- Joe Waldy (PhD in CS, Chair: Hoong Chuin Lau)
- Rajiv Kumar (PhD in CS, Chair: Pradeep Varakantham)
- Kok Yew Tan (PhD in Business, Chair: Hannah Chang)
- Lai Hing Tan (PhD in Business, Chair: Xuesong Geng)
- Tanvi Verma (PhD in CS, Chair: Pradeep Varakantham)
- Meghna Lowalekar (PhD in CS, Chair: Pradeep Varakantham)
- Pritee Agrawal (PhD in CS, Chair: Pradeep Varakantham)
- Na Fu (PhD in CS, Chair: Hoong Chuin Lau)

PROFESSIONAL ACTIVITIES

- Member of:
 - Institute of Electrical and Electronics Engineers (IEEE)
 - Association for the Advancement of Artificial Intelligence (AAAI)
 - Institute for Operations Research and the Management Sciences (INFORMS)
- Area Chair:
 - International Conference on Autonomous Agents and Multiagent Systems (AAMAS): 2025
- Senior Program Committee:
 - International Joint Conference on Artificial Intelligence (IJCAI): 2023, 2024, 2025
 - International Conference on Autonomous Agents and Multiagent Systems (AAMAS): 2018, 2019, 2023, 2024, 2025
 - AAAI Conference on Human Computation and Crowdsourcing (HCOMP): 2022
 - AAAI Conference on Artificial Intelligence (AAAI): 2020, 2024, 2025
 - AAAI Conference on Artificial Intelligence (AAAI), Special Track on AI for Social Impact: 2024, 2025
- Program Committee:
 - International Conference on Automated Planning and Scheduling (ICAPS): 2021–2024
 - AAAI Conference on Artificial Intelligence (AAAI): 2011, 2012, 2016, 2017, 2019, 2021–2023
 - AAAI Conference on Artificial Intelligence, Special Track on AI for Social Impact: 2020–2023

- AAAI Conference on Human Computation and Crowdsourcing (HCOMP): 2019–2021
- International Joint Conference on Artificial Intelligence (IJCAI): 2013, 2016, 2017, 2020
- 26th World Congress on Intelligent Transport Systems (ITS World Congress): 2019
- International Conference on Autonomous Agents and Multiagent Systems (AAMAS): 2011, 2013–2017
- Winter Simulation Conference (WSC): 2018
- International Workshop on Agents in Traffic and Transportation (ATT): 2012 @AAMAS, 2014 @AAMAS, 2016 @IJCAI, 2018 @IJCAI
- ACM Symposium on Applied Computing (ACM SAC): 2015, 2016, 2018
- IEEE International Conference on Agents (ICA): 2016, 2017
- Duke Forest Conference 2016
- International Conference on Principles of Practice in Multi-Agent Systems (PRIMA): 2009–2015
- International Conference on Electronic Commerce (ICEC): 2012, 2013
- International Workshop on Data-Oriented Constructive Mining and Multi-Agent Simulation @ IAT-13 (2013)
- Annual IEEE Conference on Automation Science and Engineering (CASE): 2010
- International Conference on Computational Intelligence and Security: 2008
- Editorial Board membership:
 - Senior Editor, Electronic Commerce Research and Applications, 2019 – 2025
 - Associate Editor, Electronic Commerce Research and Applications, 2013 – 2019
- Member, 2019 President’s Science Awards Selection Committee, 2019
- Associate Editor, 21st IEEE International Conference on Intelligent Transportation Systems (ITSC-18), 2018
- Demo Chair, Fifteenth International Conference on Autonomous Agents and Multiagent Systems (AAMAS-16), 2016
- Chair, IAT-15 Special Session on Agents in Urban Computing and Engineering
- Publication Chair, 16th Annual International Conference on Electronic Commerce (ICEC-14), 2014
- Publication Chair, 14th Annual International Conference on Electronic Commerce (ICEC-12), 2012
- Member of:
 - Institute of Electrical and Electronics Engineers (IEEE)
 - Association for the Advancement of Artificial Intelligence (AAAI)
 - Institute for Operations Research and the Management Sciences (INFORMS)
- Reviewer for Springer book proposal on transportation, 2005
- Ad hoc referee for:
 - ACM Transactions on Intelligent Systems and Technology
 - Applied Mathematical Modeling
 - Computational Intelligence
 - Conference on Uncertainty in Artificial Intelligence
 - Discrete Applied Mathematics
 - Electronic Commerce Research and Applications
 - European Journal of Operational Research
 - Geoinformatica
 - IEEE International Conference on Intelligent Transportation Systems
 - IEEE Transactions on Automatic Control
 - IEEE Transactions on Intelligent Transportation Systems
 - IEEE Transactions on Mobile Computing
 - IEEE Transactions on Systems, Man, and Cybernetics
 - IISE Transactions
 - International Conference on Information Systems
 - International Journal of Geographical Information Science

- Journal of Economic Behavior and Organization
- Journal of Global Optimization
- Journal of Intelligent Transportation Systems
- Operations Research
- Transportation Research Part A
- Transportation Research Part C
